It adopts the new function of automatic opening and closing by pressing, which is easy and convenient.

Easy Wiring

Movable guide rail plate can be put out of the box for wiring, unlimited by the space within the box. The panel can be adjusted to a level position with an ellipse hole in the guide rail plate, which betters its appearance.

Easy Adjustment

Innovated function of adjustment enables the distribution box to adjust the height freely within a range from installation depth to the outside wall, which can be 20mm deep at the most. The newly added guide rail balance bar can keep the solid plate in a vertical installation.

Easy Identification

The unique printed display of circuit breaker control makes the wiring structure clear, as well as easy connection, search and maintenance.

Looks that mesmerizes your senses!

Go for the unconventional style that has an impeccable aura.
With edgy contours and tapered shape it is definitely distinct and graceful.

It comes in subtle shades that speak of undying beauty.
The silver fleck in the form of the chrome embodiment helps
the switches to stand out. It adds glamour and charm to not only
your walls but also to your space.
